YOUR MONTHLY CYGNI UPDATE - JUNE 2020 EDITION

The future is green energy, sustainability, and renewable energy

Triple convergence of solar, storage and energy efficiency is rapidly bringing down the cost of energy and renewable energy is more affordable than ever. We need to invest significantly in green energy making solar so cheap that everybody can afford them.

Important Activities – June 2020

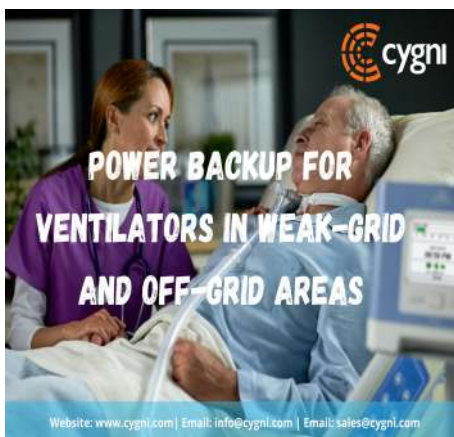

Cygni @ List Of Top 15 Solar Energy Startups

Cygni Energy is listed as one of the top 15 solar energy startups, helping India transition to sustainable energy sources. Various measures have been taken by governments across the world to help the transition to clean and renewable sources of energy. The push from the Indian government to transition to cleaner energy sources has opened opportunities for growth in the Indian solar energy sector. To know more information, please click [here](#).
