Let's Collaborate With SUN

The sun which is all-powerful is not selective about what it should illuminate and what it should not. It is impartial and inclusive.

Shared Resolution on Battery Swapping - Cygni

Cygni became one of the stakeholders in India's first Shared Resolution on Battery Swapping. Ola Mobility Institute in partnership with CEEW, C-BEEV and WEF has conducted a study to understand the feasibility of battery swapping in India. Based on the deeper understanding of the longevity and sustainability of the battery swapping technology and its appropriateness for the Indian scenario. 33 stakeholders endorsed Shared Resolution on Battery Swapping in May'19. MoRTH's advisory on allowing the sale of EVs without batteries reinforces the importance of Battery Swapping for EV revolution in India.
