Let the Brightness of SUN bring Happiness to your Home

Cygni Hybrid Solar Controller: Introducing First DUAL input (grid and solar) and DUAL Output Solar Backup System with AC and DC output. The Hybrid system with Lithium battery and remote monitoring is ideal for residential or small commercial rooftop solar. The system is designed to efficiently use solar to provide maximum backup to consumers with weak grid or high electricity bills.

Feel Proud to Drive a Cygni Battery Powered Electric Vehicle

Nature is our responsibility. Make our planet greener and pollution-free with most efficient electric vehicle batteries from Cygni. Cygni E-Rickshaw batteries are high performance Lithium-Ion batteries available in lightweight and compact design. Show that you care for the environment. Switch to the electric way with Cygni. Go for Cygni Electric Vehicle Batteries.

"Solar power is going to be absolutely essential to meeting growing energy demands while staving off climate change"

Solar power BACKUP for Healthcare Centres

Cygni has successfully implemented Solar power BACKUP for Ventilators in weak-grid and off-grid areas with the support of Infineon Technologies AG. We have successfully completed the installations in the Nav-Jivan hospital, Jharkhand, COVID-19 Specialty ward and general ward. 24/7 uninterrupted power supply with the most efficient solar power backup system.

Positive Psychology Training

Positive Psychology Trainings-Theory of Well-Being Workshop

At Cygni, we organized a training program for all employees on positive psychology & theory of well-being workshop by Dr. Qureshi, IPS, Haryana. Dr. Qureshi's excellent session covered various topics, including how one can measure happiness, how to find our core strengths, the effects of positive emotions in our life and also how to improve positiveness in personal & professional life.

Energy Practice Session- Future Trends in Renewables

The IEEE Standards Association conducted an Energy Practice Session - Future Trends in Renewables on 9 December '20. Mr. Venkat Rajaraman (CEO/Founder at Cygni Energy) was in the Panel Discussion. As economies grow, technology advances and consumers become more environmentally friendly, global energy demands will evolve to meet changing needs. With decreasing costs and rising capacity, renewable energy sources will continue to move into the driver's seat in electricity markets as utilities and regulators replace the retiring capacity with renewable energy sources and customers increasingly choose them for economic and environmental concerns.

Solar Electricity Basics: A Green Energy Guide

Book Description: The future will be powered by renewables. As we transition away from finite and polluting fossil fuels, clean, reliable, and affordable renewable technologies such as solar electricity will become the mainstay of our energy supply.

Solar Electricity Basics provides a clear understanding of electricity and energy. It discusses the types of solar electric system you can choose from, their components, solar site assessment, the installation of photovoltaic systems, and much more.

Author: Dan Chiras

Whether your goal is to lower your energy bill or to achieve complete energy independence, Solar Electricity Basics is the introduction you need.

Over this energy era,
Cygni experts are your
reliable partners.

Decentralised Solar Refrigeration

UPCOMING LAUNCH: “Decentralised Solar Refrigeration: Opportunities in the Livelihood Appliances Market in India” Report on Tuesday 19th January 2021. Launching a new report mapping out the existing ecosystem of the #offgridsolar refrigerator sector in India, along with recommendations to support the market development of this sector. This report is

Pongal Celebration at Cygni

Cygni is going to organize The Annual Sports Day and Pongal Celebration during the January month. Pongal is one such festival, that is celebrated to thank the Sun God and Lord Indra for helping farmers in getting better-yielding crops. A special dish called “Pongal” is prepared and offered to the Sun God. At Cygni, will be

carried out by Intellectap, supported by
GOGLA.

celebrating this festival by preparing
Pongal dish, decorations and gift-giving.
