When there's a huge solar energy spill,  
it's just called a  
**'NICE DAY'**  
Let's have a lot of nice days together.

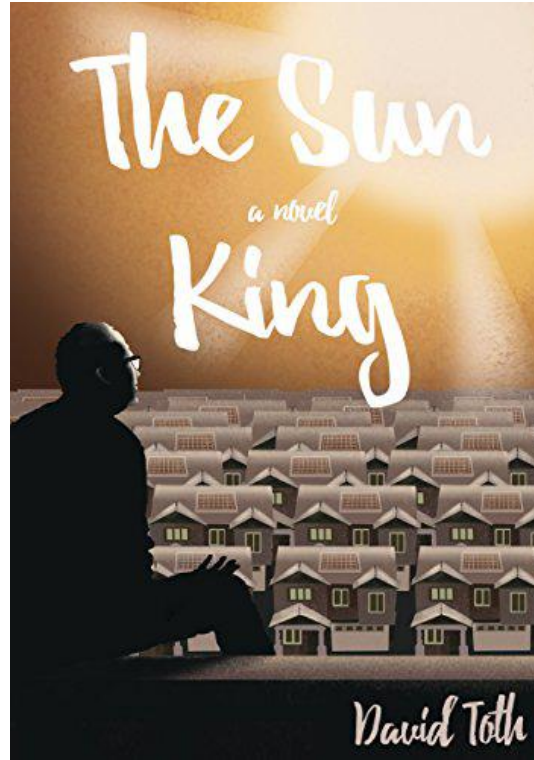

**Electrifying India's Villages by Cygni and IIT Madras**  
 An article about Cygni Energy has been published on The Scientific Factor, September edition. The article is about how IITMadras and Cygni harnessed solar energy to help electrify 40,000 villages in India. The solar DC inverter less technology by Cygni Energy, the contribution of professor Ashok Jhunjhunwala, Indian Institute of Technology, Madras (IITM), and Cygni's Most Innovated Product Award 2018 is mentioned in the article. **The Sun King: From Retired Engineer To King Of Solar Power - Author: David Toth**

The Sun King is a contemporary novel about an engineer living in the picturesque Adirondack Region of New York State. His recent retirement awakens a long-dormant entrepreneurial dream and, against the wishes of his wife, he decides to become the Henry Ford of the solar power industry.

**The Sun King: David Toth**

His quest to harness the sun's power turns into an obsession that alienates family, friends and community—possibly even Nature herself.

**Employee Engagement Activity - Fun Friday**

Cygni Energy is conducting fun, engaging and drop-in programs on every Friday at 4.30 PM as part of employee engagement activity. Different types of quiz programs, singing competition, brainstorming sessions, picture identification etc. are conducting online every week. The winner selection and the prize distribution makes the activity more excited and create healthy competition among the employee.

**Upcoming Activities - October 2020**

**Cygni Annual Day Celebration**

Cygni Energy will be celebrating the annual day on 8th October 2020. Cygni started its journey with 9

employees and Cygni became the first startup to be part of the "startup India action plan". Today Cygni is an organization which have its footprint in the Indian renewable energy market for solar solutions as well as known as the electric vehicle battery manufacturer.

### Virtual Workshop on Clean Energy

Cygni CEO Mr Venkat Rajaraman is the speaker for Virtual Workshop on Clean Energy: Advancing Growth of Photovoltaic (PV) Development in India, on October 6th, starting at 4:30 pm (IST)/7:00 am (EDT). He will be speaking on the topic '**Powering the Last Mile: Challenges and Opportunities**' followed by Q&A and discussion. To know more details [click here](#).
