

Feel Proud to Drive a Cygni Battery Powered Electric Vehicle

Nature is our responsibility. Make our planet greener and contamination free with most-reliable electric vehicle batteries from Cygni. Cygni's high performance Lithium-Ion batteries accessible in a lightweight and compact form factor. Show you care for the climate. Remember, we do not inherit the earth from our ancestors, we borrow it from our children. Switch to the electric way with Cygni.

Future of Energy Storage

Cygni Energy's Battery Energy Storage Systems (BESS) are great for Telecom towers and behind-the-meter (BTM) applications. Cygni's solution is installed at over 200 Telecom Towers and have shown consistent Return of Investments (RoI) to its key clients. Telecom Towers, which are heavily reliant on Diesel Generators, is an ideal solution for Cygni's high performance lithium-ion batteries. Remote monitoring at NoC and flexibility in sizing are key factors for this solution.

Congratulations!!!

Cygni proud to announce one more Indian Patent on paralleling of batteries

Designing batteries to strengthen EVs, extend range next step for electric vehicles.

Mr. Venkat Rajaraman goes over what elements are viewed as important while designing a battery and it is intriguing that safety at end-of-life ranks high among them. We need India-specific designs for batteries, keeping in mind the operating temp range, humidity etc.
