Cygni

The energy storage market to be around 80 gigawatt-hours by 2030

In this opinion piece, the following topics are discussed:

1. Current market trends influencing the need for battery manufacturing in India?
2. Prospects for increasing domestic production and localising energy storage systems in India?
3. Government's drive for solar energy and energy storage, how will the demand change in the coming years?

Actions for Restoring Environment Conference & Award

Conclusion of 1st successful edition of **Action for Restoring Environment (ARE)** conference and awards involving stakeholders from all sections of society including #industrial, #academic, #scientific, #policy makers, #media as well as #spiritual leaders. Here are the take away message emerging from all discussions.

1. No, we are not taking enough action!
2. We need to change parameters of measuring growth
3. Everyone has to take part in this climate correction
4. We need a movement / revolution to tackle climate change
5. India can become world leader in innovation for environmental solutions

ARE Conference

Battery Swapping Forum

Cygni Energy participated in the panel discussion on "Battery Charging Vs. Swapping" at Aayera's **Battery Swapping Forum** at New Delhi on 23rd November 2022. The idea was to discuss specific use cases of swapping and see if swapping can act as a complement to charging (inductive or conductive).

Battery Swapping over Conductive or Inductive Charging

- * Power system Perspective
- * EV Owner Perspective
- * Station Owner Perspective

About Battery Swapping Forum

Haryana notifies Electric Vehicle Policy 2022

The Haryana government has notified the Electric Vehicle Policy, under which 12 schemes have been made live.

Additional chief secretary of industries and commerce department Anand Mohan Sharan said that the aim of the Electric-Vehicle Policy is to promote the manufacturing of electric vehicles and their components in the state.

Haryana Electric Vehicle Policy

Tamil Nadu govt plans to extend 100% road tax exemption for EVs till 2025

To promote sales of battery-operated vehicles, TamilNadu in 2008 fixed road tax for e-bikes as Rs 750 and for personal cars, owners had to pay 3 percent to 6 percent of the vehicle's cost as tax. Later, the government halved the tax amount and in 2019 waived off the tax completely up to December 2022

Tamil Nadu Govt Nofication

Category wise-Sales Trend from Nov 2021 to Nov 2022

Source: Vahan Dashboard. Data as per 1341 out of 1428 RTOs across 34 out of 36 state/UTs

Expected battery price per kWh from 2022 to 2030

Future of Energy Storage

Cygni 2W & 3W batteries are high capacity Lithium-Ion battery, that are available in lightweight and compact designs. Show that you care for the environment. Don't burn your wallet per kilometers, Switch to the electric with Cygni powered Electric Vehicles.

For more information please contact us at: 1 800 103 0314

Cygni Energy's Battery Energy Storage Systems (BESS) are best suited for Behind-The-Meter (BTM) applications for Commercial, Industrial and Telecom applications.

- *Game changing battery technologies
- *Remote monitoring and server integration for NOC
- *Ability for quick customization to meet customer needs

Upcoming Activities- Dec 2022

Celebration: Christmas And New Year

This year Cygni is planning to celebrate Christmas and New year at the office with lots of joy and fun making events. 2022 marks a powerful start to win a world filled with possibilities.... It's the most wonderful time of the year! The Christmas cheer is already here and we can't wait to welcome the new year. We wish all of you, Merry Christmas and Happy New Year!

Cygni @ Children's Day Celebration

"Childhood is the most Beautiful of all Life's season". At our workplace, we celebrated Children's Day 2022 by recalling our childhood memories.
